

Municipal Securities Rulemaking Board

# What Do Municipal Bonds Fund in Your Congressional District?

The MSRB makes information about municipal securities and the projects they finance available through its Electronic Municipal Market Access (EMMA®) website, emma.msrb.org. Below is a list of one sample project among a diverse array of projects that can be found in each congressional district, with links to EMMA for more information.

District	Government Entity Bond Issuer	Type of Bond	Size of Bond Issuance	Follow the link and click the "Official Statement" tab for a project description

**About the MSRB**

The MSRB protects investors, state and local governments and other municipal entities, and the public interest by promoting a fair and efficient municipal securities market. The MSRB fulfills this mission by regulating the municipal securities firms, banks and municipal advisors that engage in municipal securities and advisory activities. To further protect market participants, the MSRB provides market transparency through its Electronic Municipal Market Access (EMMA®) website, the official repository for information on all municipal bonds. The MSRB also serves as an objective resource on the municipal market, conducts extensive education and outreach to market stakeholders, and provides market leadership on key issues. The MSRB is a Congressionally-chartered, self-regulatory organization governed by a 21-member board of directors that has a majority of public members, in addition to representatives of regulated entities. The MSRB is subject to oversight by the Securities and Exchange Commission.
