

MSRB Webinar on Changes to Rules Relating to New Issue Reporting Effective May 6, 2013

May 2, 2013

MSRB
Municipal Securities
Rulemaking Board

Agenda

ITEM	TOPIC
I.	MSRB Rule G-34 Overview of Requirements to Submit New Issue Information to DTCC's NIIDS Service
II.	MSRB Rule G-32 Overview of Requirements to Submit New Issue Information to MSRB's EMMA Dataport on Form G-32
III.	Form G-32 Demonstration

MSRB Rules Require Underwriters to Use DTCC's NIIDS Service

- The New Issue Information Dissemination Service (NIIDS) is an electronic system, run by the Depository Trust & Clearing Corporation (DTCC), through which underwriters submit new issue information and any follow-up adjusted information to DTCC.
- This system is then used to send data to information vendors, dealers and other market participants so they can confirm, clear and report trades.

MSRB Rules Require Underwriters to Use DTCC's NIIDS Service

- Rule G-34 (a)(ii)(C) is designed to facilitate timely and accurate new issue trade reporting by:
 - Addressing difficulties dealers have in obtaining descriptive information about new issues of municipal securities; and
 - Ensuring that the Time of Formal Award and Time of First Execution are disseminated to all dealers with pending trades in the new issue.
- Requirement became effective September 30, 2008

MSRB Rule G-34 New Issue Requirements: NIIDS Data Submission

- Underwriters must submit to NIIDS comprehensive descriptive information about a new issue within set timeframes; they must also set and announce through NIIDS a Time of First Execution
- Current Rule G-34 Requirements
 - Exception for new issues for short term securities such as variable rate demand obligations, auction rate securities and other new issues with effective maturities of less than nine months
- Revised Rule G-34 Requirements (effective May 6, 2013)
 - Removes exception for short-term instruments except commercial paper; therefore underwriters of new issues including variable rate demand obligations, auction rate securities and notes maturing in less than nine months must make submissions to NIIDS under the requirements of Rule G-34

MSRB Rule G-34 New Issue Requirements: NIIDS Data Dissemination

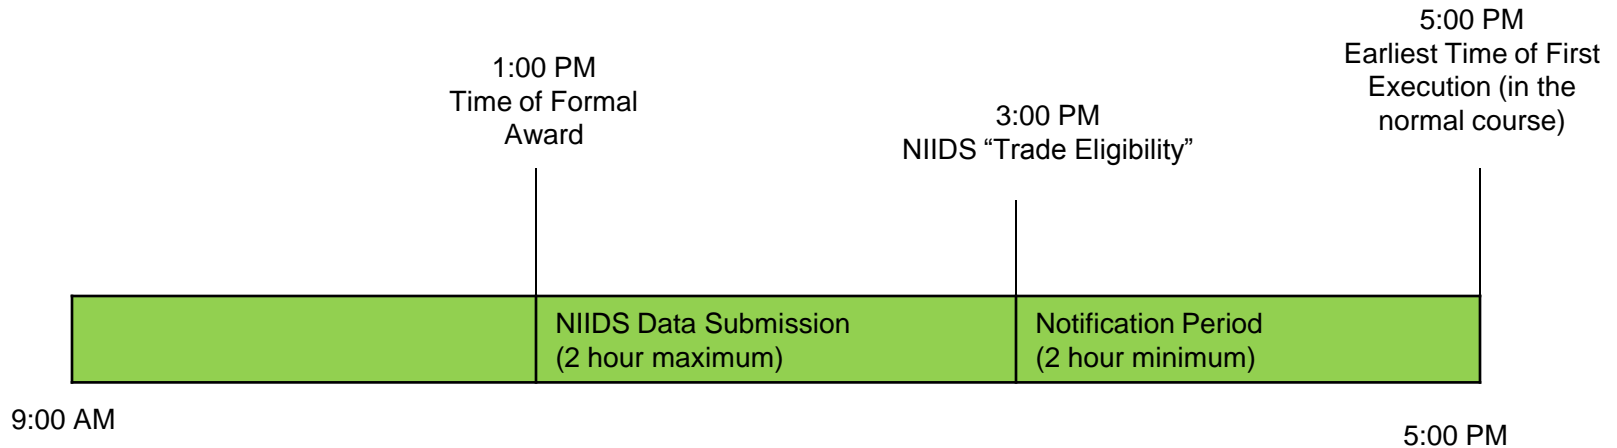

- Current Requirements
 - Underwriters must disseminate information about a new issue through NIIDS no later than *two hours* after the Time of Formal Award, including:
 - Data necessary for “Trade Eligibility”
 - Time of Formal Award
 - Time of First Execution
 - Time of Formal Award Definition
 - Negotiated Issues – the later of the time the contract to purchase the securities is executed or the time the issuer notifies the underwriter of its execution of the agreement
 - Competitive Deals – the later of the time the issuer formally awards the issue or the time the issuer notifies the underwriter of the award
- Revised Rule G-34 Requirements (effective May 6, 2013)
 - Clarifies that the *two hours* must be “Business Hours”

MSRB Rule G-34 New Issue Requirements: Advance Notification

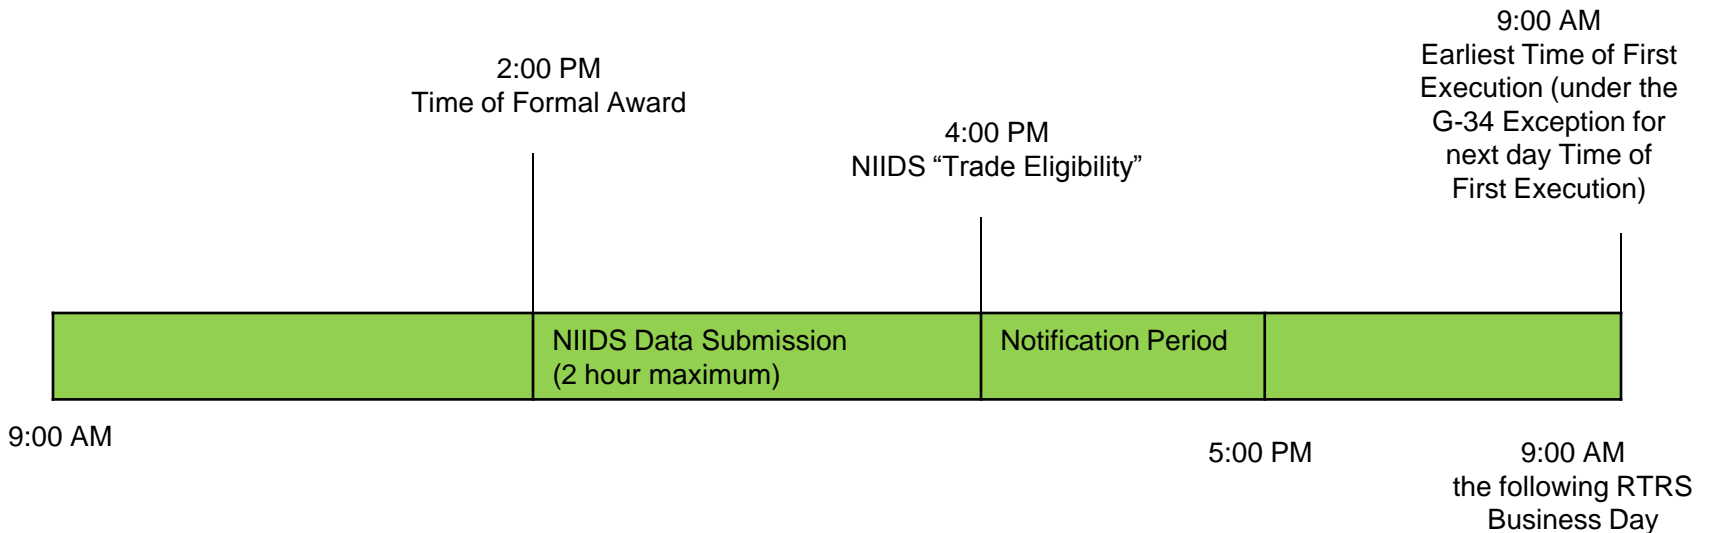

- Current Requirement - Time of First Execution must be at least two hours later than the time all information has been submitted to and disseminated from NIIDS; only the hours of 9:00 AM to 5:00 PM Eastern Time on business days count
 - Time of First Execution
 - Anticipated time for first trade executions in a new issue by the underwriter
- Revised Rule G-34 Requirements (effective May 6, 2013)
 - Exception to the required two hour advance notification requirement for:
 - Variable rate instruments for which transactions occurring on the first day of trading are expected to settle on a same-day or next-day basis
 - Any NIIDS submission where the set Time of First Execution will be on the following business day

MSRB Rule G-34 Timeline Illustration

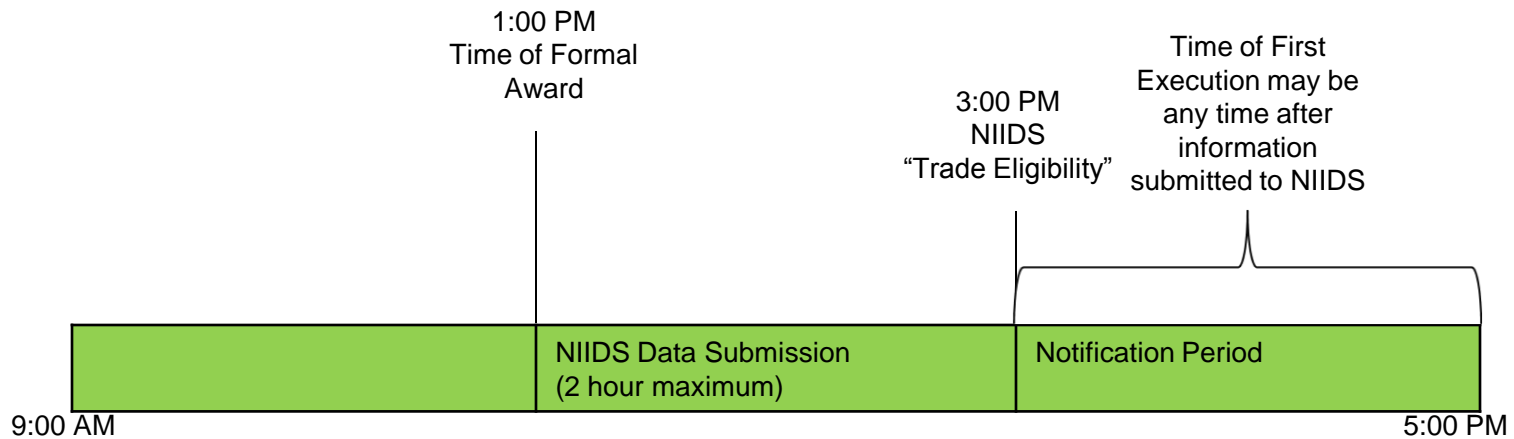

*The above diagrams assume the timelines are taking place on RTRS Business Days

*The above diagram assumes the timeline is taking place on an RTRS Business Day

MSRB Rule G-34 Timeline: Time of Formal Award Known in Advance

*The above diagram assumes the timeline is taking place on an RTRS Business Day

MSRB Rule G-32 Overview

- Rule G-32 requires underwriters to submit to MSRB's EMMA system:
 - Limited security descriptive information specified on electronic Form G-32
 - Primary market disclosure documents, such as the official statement
- Beginning May 6, 2013 enhancements to electronic Form G-32 will promote efficiency in the process by which underwriters submit data to EMMA and improve public transparency by:
 - Pre-populating data that is submitted to and disseminated from DTCC's NIIDS service;
 - Adding time of formal award and time of first execution to EMMA; and
 - Permitting input of both initial offering price and yield on Form G-32 for display on EMMA website.

MSRB Rule G-32 Submission Changes: NIIDS-Eligible Primary Offerings

- Form G-32 will be pre-populated with data submitted to and disseminated from NIIDS by underwriters under Rule G-34
- Any corrections to NIIDS data must be made through NIIDS so that all market participants receive corrected data
 - Exception: if data to be corrected is no longer editable on NIIDS, then correction must be made through EMMA

MSRB Rule G-32 Submission Changes: NIIDS-Eligible Primary Offerings

- Exceptions:
 - Data elements unique to Form G-32:
 - Underwriting spread (if not included in the official statement)
 - The existence of a continuing disclosure undertaking
 - The timing for issuer submission of annual financial information
 - Underwriters must confirm the specific securities and par amounts underwritten, taking special note of:
 - Security lists when multiple underwriters are involved
 - Par amounts on capital appreciation bonds and zero coupon securities

MSRB Rule G-32 Amendments: Primary Offerings Ineligible for NIIDS

- For primary offerings ineligible for NIIDS or primary offerings exempt from submission requirements under Rule G-34, underwriters must continue to submit Form G-32 information to EMMA on or prior to the date of first execution
