Introduction

The Municipal Securities Rulemaking Board (MSRB) protects investors, state and local governments and other municipal entities, and the public interest by promoting a fair and efficient municipal securities market. The MSRB fulfills this mission by regulating the municipal securities firms, banks and municipal advisors that engage in municipal securities and advisory activities. To further protect market participants, the MSRB provides market transparency through its Electronic Municipal Market Access (EMMA®) website, the official repository for information on virtually all municipal bonds. The EMMA website provides free public access to official disclosures, trade data, credit ratings, educational materials and other information about the municipal securities market. The MSRB also serves as an objective resource on the municipal market, conducts extensive education and outreach to market stakeholders, and provides market leadership on key issues. The MSRB is a Congressionally-chartered, self-regulatory organization governed by a 21-member board of directors that has a majority of public members, in addition to representatives of regulated entities. The MSRB is subject to oversight by the U.S. Securities and Exchange Commission (SEC).

The EMMA website is a centralized online database operated by the MSRB that provides free public access to official disclosure documents and trade data associated with municipal bonds issued in the United States. In addition to current credit rating information, the EMMA website also makes available real-time trade prices and primary market and continuing disclosure documents for over one million outstanding municipal bonds, as well as current interest rate information, liquidity documents and other information for most variable rate municipal securities.

This manual describes three types of voluntary submissions made by issuers: voluntary official statements, preliminary official statements and voluntary financial reporting information, which obligated persons can also submit.

⚠️ In the remainder of this document, references to an Issuer will also denote an agent specifically designated by the issuer to submit information on its behalf unless otherwise noted.
Part 1: Access EMMA Dataport

Logging in to the EMMA website to make a continuing disclosure submission can be done from the EMMA homepage or MSRB.org.

Log in from the EMMA Home Page

From the EMMA homepage at [EMMA.MSRB.org](http://EMMA.MSRB.org), click the EMMA Dataport tab.
Then click the **Login to MSRB Gateway** button.
Log in from the MSRB Home Page
From the MSRB homepage at www.MSRB.org, click LOGIN.

Log into MSRB Gateway
From the MSRB Gateway landing page, enter your User ID and Password, and click Login.
From the MSRB Gateway Main Menu, click **EMMA Dataport**. The EMMA Dataport Submission Screen will appear.
Part 2: Submit Voluntary Financial Reporting Information

Upon logging into MSRB Gateway, the Issuer or Obligated Person may choose to create or update disclosure data regarding issues and/or securities in EMMA Dataport. The voluntarily financial information will be disclosed on the EMMA website when published.

If your organization has the rights to act on the behalf of another organization, you will see a screen that will allow you to select the organization from the drop-down menu for which you are making a submission.

From the EMMA Dataport Submission Portal screen, click the Voluntary Financial Information: Timing, GAAP Undertaking & URL button.
The Submission Summary screen displays any previously published submissions. **Click Create Submission** to submit a new disclosure.

**Voluntary Financial Information**

Issuers and obligated persons may submit, on a voluntary basis, the following information:

- **Timing** – Describe the contractual obligation to disclose annual financial statements through EMMA: 120 days after the end of the fiscal year, if applicable.
- **Preparation** – Disclose the accounting method used in preparation of audited financial statements: GAAP, GASB, GAAP-FASB, or unspecified.
- **URL Link for Additional Financial Information** – Provide a hyperlink (URL) to an Internet-based resource with additional financial information, such as your investor relations webpage.

In conjunction with these submissions you will be required to provide the CUSIP numbers of securities, if applicable.

What information can I submit?

**Create Submission**

No published submissions exist.
Enter a description of the financial disclosure in the **Disclosure Description** text box. Select the submission date of the annual financial filing information from the dropdown menu in the **Timing of Annual Financial Filing** section.

Provide a URL in the **URL** text box to link to Additional Financial Information.

Select the **Financial Accounting Method** used in conformance to the Generally Accepted Accounting Principles (GAAP).

After you have entered the financial information, click the **Next** button.
Associate CUSIPs

To begin, select the type of securities, which may be CUSIP-9-based or non-CUSIP-9-based.

For non-CUSIP-9-based submissions, select one of the following categories: Commercial Paper, Non-CUSIP, 529 Savings Plan/ABLE Program or Other Municipal Fund Security. Once the selection is made, follow the on-screen instructions for associating the disclosure to the appropriate issue and/or security. Select the Next button to continue.

Select either CUSIP-9-based or non-CUSIP-9 based as they cannot be combined in one submission.
In the text box, you may enter or copy and paste a list of CUSIP-9s and/or CUSIP-6s and then click the **Upload** button. Note that you cannot click the preview button until at least one CUSIP is uploaded.

The copy-and-paste functionality includes a wide variety of delimiters to separate securities, including semicolon, comma and enter. Up to 1,500 CUSIPs can be pasted in the text box, and a total of 15,000 CUSIP-9s are allowed for each submission.
Verify that the CUSIPs listed are accurate. To remove a CUSIP-9, highlight the CUSIP(s) and click the **Unassign CUSIPs** link below the list of CUSIPs.

Invalid CUSIPs will not populate in the list and generate an error message that appears on the right-hand side of the screen.
Find CUSIPs by Issuer Name and State

If you do not know your CUSIPs, you may use the search function to find CUSIP-6s. Enter an issuer name and state and select the **Search CUSIP-6s** button. Filters are available to exclude matured securities and fully called or redeemed securities from the results. A list of issuers based on your search criteria appears. Select one or more issuers to associate their securities to the disclosure.
**Publish the Disclosure**

The Voluntary Financial Reporting Disclosure Data will not be disclosed to the public until the submission is published. First, click the **Preview** button to review all information to be published.
If you wish to change any information on the preview screen, use the Back button until you reach the screen where the data was input. Once all information is correct, click the Publish button.

Select the Yes: Publish button finalize your submission.
The confirmation screen will contain the following:

<table>
<thead>
<tr>
<th>Submission ID</th>
<th>Unique identifier for your submission, which is helpful for any future updates</th>
</tr>
</thead>
<tbody>
<tr>
<td>Print Submission link</td>
<td>Print your submission confirmation</td>
</tr>
<tr>
<td>Start new submission link</td>
<td>Make a new submission or to modify existing submission</td>
</tr>
<tr>
<td>Link to secondary email address</td>
<td>Send confirmation email to a secondary email address</td>
</tr>
</tbody>
</table>

The MSRB will send an electronic receipt to your email address. The receipt contains a complete listing of the submission and a link to view the submission on the EMMA website.

Update the Submission

The new submission will be added to the list on EMMA Dataport Submission Summary Screen. To update a submission, select either the Edit or Cancel link on this screen.
If no underwriter has made an EMMA submission for the issue since revised Rule G-32 became effective on June 1, 2009, then the issuer can make updates including:

- revising a maturity’s principal amount and initial offering price or yield;
- adding a security’s CUSIP to the CUSIP numbers already associated with the issue, along with certain related information about the security; and
- indicating that a security previously associated with the issue is in fact not part of the issue.

If any underwriter, as a regulated entity, has made an EMMA submission since June 1, 2009—including an update to a pre-EMMA submission—then the issuer updates are restricted to adding the plain-English issuer name and issue description and/or adding an official statement. The underwriter’s data is protected from modification if it is for (a) a primary offering underwritten after June 1, 2009, or (b) an offering underwritten before June 1, 2009 that was revised by a dealer since that date.
Part 3: Submit Preliminary Official Statement and Pre-Sale Documents

An issuer’s voluntary submission in no way relieves the underwriter of its obligation to submit documents and information under Rule G-32.

A voluntary preliminary official statement submission must be accompanied by a minimum amount of indexing information. The issuer may provide additional information as it becomes available.

<table>
<thead>

</tr>
</tbody>
</table>

If your organization has the rights to act on the behalf of another organization, you will see a screen that will allow you to select the organization from the drop-down menu for which you are making a submission.
The EMMA Dataport Submission Portal displays buttons which represent the submission types you can make to EMMA. Select the **Preliminary Official Statement and Pre-Sale Documents** button.
Complete all required fields and any additional information you would like to provide.

⚠️ The following screen is similar for creating **Commercial Paper** and **Ineligible for CUSIP Number Assignment** submission.
Security Information

⚠️ The Security Information is only applicable to Bond, Note and Variable Rate submissions.

Enter the CUSIP-9 then click the Find link or manually input the information in the fields. Once all information is complete, select the Add Security to Issue link.
Upload the Document

To upload a document, click the Add Preliminary Official Statement link. Enter the Document Description then click the Browse button.

Click the Upload button to transfer the file to the EMMA website.

Note that you cannot click the preview button until at least one PDF document is uploaded.
Each continuing disclosure document must be a portable document format (PDF) file configured to be saved, viewed, printed and retransmitted by electronic means. The document must also be word-searchable, that is, allowing the user to search for specific terms used within the document through a search or find function available in most standard software packages.

Diagrams, images and other non-textual elements are not required to be word-searchable. If the submitted file is a reproduction of the original document, the submitted file must maintain the graphical and textual integrity of the original document.

To add a pre-sale document to a submission after the preliminary official statement is uploaded, click the Add more documents link on the Document screen.

**Publish the Disclosure**

The uploaded document will not be accessible by the public until it is published. First, select the Preview button to review all the information to be published.

If you wish to change any information on the preview screen, use the Back button until you reach the screen where the data was input. Once all information is correct, click the Publish button.
Select the Yes: Publish button to finalize your submission.
The confirmation screen contains the following:

<table>
<thead>
<tr>
<th><strong>Submission ID</strong></th>
<th>Unique identifier for your submission, which is helpful for any future updates</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Print Submission link</strong></td>
<td>Print your submission confirmation</td>
</tr>
<tr>
<td><strong>Start new submission link</strong></td>
<td>Make a new submission or to modify existing submission</td>
</tr>
<tr>
<td><strong>Link to secondary email address</strong></td>
<td>Send confirmation email to a secondary email address</td>
</tr>
</tbody>
</table>

The MSRB will send an electronic receipt to your email address. The receipt will contain a complete listing of the submission and a link to view the submission on the EMMA website.
Update the Submission

To update a submission, click the **Update** button from the Preliminary Official Statement and Pre-Sale Documents page.

If no underwriter has made an EMMA submission for the issue since revised Rule G-32 became effective on June 1, 2009, the issuer can make updates including:

- revising to a maturity’s principal amount and initial offering price or yield;
- adding a security’s CUSIP to the CUSIP numbers already associated with the issue, along with certain related information about the security; and
- indicating that a security, previously associated with the issue, is in fact not part of the issue.

If any underwriter, as a regulated entity, has made an EMMA submission since June 1, 2009—including an update to a pre-EMMA submission—then the issuer updates are restricted to adding the plain-English issuer name and issue description and/or adding an official statement. The underwriter’s data is protected from alteration if it is for (a) a primary offering underwritten after June 1, 2009, or (b) an offering underwritten before June 1, 2009 that was revised by a dealer since that date.
Part 4: Submit Issuer Voluntary Official Statements

An Issuer’s voluntary submission in no way relieves the underwriter of its obligation to submit documents and information under Rule G-32.

Underwriters are required to submit all primary market documents to the EMMA website under Rule G-32. Issuers can submit primary market documents or edit their existing disclosure data on the EMMA website where errors or omissions may have occurred. There is no requirement for an underwriter to submit.

Bond, Note and Variable Rate Submissions
This section describes how issuers may submit official statements and advance refunding documents on a voluntary basis.

An issuer or its designated agent can submit an official statement on a voluntary basis in connection with any type of security on EMMA. As stated previously, if no underwriter has made a regulated EMMA submission about the issue since June 1, 2009—when revised Rule G-32 became effective—the issuer may:

- Provide the plain-English issuer name and issue description, in addition to the abbreviated description already present;
- Revise a maturity’s principal amount and initial offering price or yield;
- Add a security’s CUSIP to the CUSIP numbers already associated with the issue, along with certain related information about the security; and
- Indicate that a security previously associated with the issue, is in fact not part of the issue.

An issuer may not change information associated with an issue if any underwriter or dealer has made a regulated submission about the issue since June 1, 2009 under revised Rule G-32. This is because the underwriter’s or dealer’s submission was done pursuant to the rule and may not be altered by an unregulated party. The underwriter’s data is protected from alteration if (a) it was a primary offering underwritten after June 1, 2009, or (b) it was underwritten before June 1, 2009, but it was revised by a dealer since that date. EMMA “grays out” information that may not be changed. The issuer may, however, change the issuer name and issue description if they are incorrect, even if they were in an underwriter’s submission.

An issuer may add an official statement or advance refunding document to any issue, even if underwriter-submitted information after June 1, 2009 is already present. The EMMA website indicates on its public display screens that the issuer’s document is Issuer submitted.
Submit Pre-June 1, 2009, Bonds
For bonds issued before June 1, 2009, and not subsequently updated by a dealer, begin by navigating to the EMMA Dataport Submission Portal, which displays the buttons which represent the submission types you can make to EMMA.

Select the Issuer Voluntary Official Statement button.
Then click the **Create** button.

![EMMA Dataport Manual for Voluntary Submissions by Issuers and Obligated Persons](image)

**Issuer Voluntary Official Statements**
Submit official statement or related information to make a voluntary primary market submission.

- **Why submit voluntary official statements?**
  - Bond/ Note/ Variable Rate
    (Standard EMMA Submission- 9-digit CUSIP number required)
    - Create
    - Update
  - Commercial Paper
    (6-digit CUSIP number required)
    - Create
    - Update
  - Ineligible for CUSIP Number Assignment
    - Create
    - Update
  - Municipal Fund Security
    - Create
    - Update
  - Advance Refunding Document
    (Also known as Escrow Deposit Agreement/ Refunding Agreement etc.)
    - Create
    - Update

*IMPORTANT NOTICE: Submissions made using this service do NOT relieve underwriters of their submission obligations relating to official statements and advance refunding documents under MSRB Rule G.32.*

Enter a CUSIP-9 from your issue and then click **Next**.

**CUSIP-9 Submission (Voluntary Official Statement)**

Enter a 9-digit CUSIP number

CUSIP-9:   

![Next button](image)
There are three sections on the Issue page: Issue information, Continuing Disclosure Information and Security Information.

For issues underwritten before June 1, 2009 and not subsequently updated by a dealer, the Continuing Disclosure Information section may be blank or unavailable.

Enter **Issuer Name** and **Issue Description**.

Confirm if there is a continuing disclosure agreement.

If you select **No**, EMMA displays the following warning.
If Yes, fill out the Issuer Information section. Enter either the date or number of days by which the annual financial information is due to be submitted.

To add the information for an obligated person, click the Add Obligated Person link at the bottom of the continuing information portion of the screen.

Complete the fields and repeat this step to add another obligated person.
Verify that the security information is correct. You can edit **Maturity Principal Amount** and **Initial Offering Price or Initial Offering Yield**.

</table>

You may delete a security (maturity) that is not part of the issue by clicking the drop-down arrow under **Security Status** and selecting **Not on Issue**.
To add a security to this issue click **Add Security to Issue** and enter the information for the security. Enter the CUSIP number and click **Find**. The EMMA website will display any previously stored information about the security or blank fields to allow you to enter information not yet available on the EMMA website. You may enter the maturity date, principal amount and price.

### Upload the Document

Select the **Document** tab then select the **Document Type** from the drop-down menu.

Enter the **Document Description**. Click the **Browse** button to locate the file on your computer and then click the **Upload** button.
After the official statement is uploaded, click the **Add Document** link on the Document tab to add more documents to a submission.

It is recommended that the official statement comprise a single file, but if it is necessary to upload multiple files to provide a complete official statement, click the **Upload Multiple Files** button.

After you upload the official statement, you may click on the name of the document to view an **Options** pop-up menu that includes links to edit file information (such as the description), replace one file with another or remove a file.

**Publish the Disclosure**

The uploaded document will not be available to the public until it is published. First, click the **Preview** button to review all uploaded information.
If you wish to change any information on the preview screen, use the Back button until you reach the screen where the data was input. Once all information is correct, click the Publish button.
Select the **Yes: Publish** button to finalize your submission.

The confirmation screen contains the following:

<table>
<thead>
<tr>
<th><strong>Submission ID</strong></th>
<th>Unique identifier for your submission, which is helpful for any future updates</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Print Submission</strong> link</td>
<td>Print your submission confirmation</td>
</tr>
<tr>
<td><strong>Start new submission</strong> link</td>
<td>Make a new submission or to modify existing submission</td>
</tr>
<tr>
<td><strong>Link to secondary email address</strong></td>
<td>Send confirmation email to a secondary email address</td>
</tr>
</tbody>
</table>

The MSRB will send an electronic receipt to your email address. The receipt will contain a complete listing of the submission and a link to view the submission on the EMMA website.
**Update the Submission**

To revise a voluntary official statement submission, select the **Issuer Voluntary Official Statement** button then click the **Update** button.
On the next screen, enter a nine-digit CUSIP number or submission ID of the submission you will update. During the update process, you can change anything you or your organization previously submitted.

You can add, replace or delete documents. Your designated agent can make the same changes on your behalf. Be sure to **Publish** the updated submission to disseminate the results.
The update process also enables you to cancel an official statement submission that your organization has made. To do so, select the **Offering** tab and click the **Cancel Offering** at the bottom of the screen. Canceling your submission removes it from public view. It does not affect anything submitted by an underwriter.
Voluntary Official Statements for Commercial Paper

Commercial Paper refers to a security that CUSIP Global Services identifies by a six-digit CUSIP number. If the issuer has added digits to an officially assigned six-digit CUSIP number, EMMA still regards it as a six-digit CUSIP. EMMA only accepts a CUSIP number that has been identified as commercial paper by its information vendor.

Start the submission on the Issuer Voluntary Official Statement button and click the Create link next to Commercial Paper. Next, enter the six-digit CUSIP number.

From the Issue tab, enter or change information in any editable fields. You must provide the continuing disclosure information in the lower part of the screen or select the No button. You may also add an obligated person to the submission.
Upon completion, click on the Document tab to upload the voluntary official statement and Publish the submission.
Voluntary Official Statements for Securities Ineligible for CUSIP Number Assignment

For a security ineligible for CUSIP number assignment, you may add an Official Statement to an existing submission, or you may create a submission for a new issuer.

Start the submitting process in the usual manner in the EMMA Dataport Submission Portal. On the Search for Issues screen, enter an issuer name or portion of a name and/or choose a state from the drop-down menu then click Search.

From the list of matching securities, you may then choose the issuer whose security you will submit against. If the issuer is not listed, you may add a new issuer.
The Issue input screen, like that for ordinary bonds, has three parts, as shown below. It has no field for a CUSIP number.

When you have completed this screen, upload the official statement on the Document tab and then Publish the submission.

To update a submission related to a security ineligible for CUSIP number assignment, enter the submission ID and proceed.
Voluntary Official Statements for 529 Savings Plans/ABLE Programs

A 529 savings plan/ABLE program is a type of municipal fund security. The procedure for submitting voluntary official statements for 529 savings plans/ABLE Programs is described in the [529 Savings Plan/ABLE Program Submissions Manual](#).

Voluntary Official Statements for Other Municipal Fund Securities

An issuer may voluntarily submit an official statement for a municipal fund security. The issuer can create a new record even if none has been submitted by a dealer previously. An issuer can also update a municipal fund security submission but, unlike other security types, cannot modify any part of a dealer’s submission.

Begin by selecting the **Issuer Voluntary Official Statement** button and select the type of municipal fund security.
Next, select the state that issues the security. Then click the search button.
The EMMA website displays the names of any municipal fund security plans previously submitted for the state. In the example below, there is a plan on file for the state.

⚠️ The plan(s) listed as modifiable have been disclosed by an issuer and may be modified by the same. Other plans are listed for reference only and therefore cannot be changed by an issuer.

To submit a voluntary official statement for this plan, click Add New Plan. This will create a new record that you can later modify.

The Plan tab appears. Enter the issuer information and complete the continuing disclosure section.
On this screen, you may also add data about an obligated person or persons.

On the **Document** tab, upload a disclosure document or supplement as you would an official statement for any other security type.
Modifying or Canceling a Municipal Fund Security Submission

The procedure for modifying a municipal fund security description uses the same tabs as creating one. However, an issuer can only modify a plan whose information was submitted by an issuer and not by a dealer. Such plans have a **Modify** link next to the plan description on the screen used to select a state.

You may cancel your submission on the **Offering** tab.
Advance Refunding Documents Submitted on a Voluntary Basis

Issuers may submit advance refunding documents to the EMMA website on a voluntary basis. Start the process from the EMMA Dataport Submission Portal. Unlike other securities, the next screen requires you to provide the document before providing securities information.

You may enter an optional document description before uploading the document. It is recommended that the document comprise a single file, but you may upload multiple files if necessary, to provide the complete document.
After uploading the document, click the **Offering** tab to enter refunding information.

Then **Enter the CUSIP for Refunded Issue** (required) in the field and click the blue arrow button or click on **I choose not to provide refunding CUSIPs**.
After you enter the CUSIP numbers, EMMA displays summary information about the issues.

You may **Remove** an issue to correct an error.

Next, click the **Refunded Issue** tab to continue.

The Refunded Issue tab enables you to enter new CUSIP numbers if applicable, add an additional refunded issue or associate multiple documents with the appropriate maturities.

**Updating a Voluntary Advance Refunding Document**

To update your voluntary advance refunding document submission, select Update from the Dataport Submission Portal. Provide a CUSIP number or the submission ID of your earlier submission and proceed in the same way as for creation.
