

The Municipal Securities Rulemaking Board (MSRB) is the self-regulatory organization charged by Congress to protect investors, municipal entities and the public interest by promoting a fair and efficient municipal securities market. The MSRB's mandate requires ongoing engagement with stakeholders that benefit from a well-functioning market. The MSRB's representative Board of Directors serves as the foundation for policymaking, which is further informed by public and industry input, and outreach to stakeholders.

A REPRESENTATIVE BOARD PROVIDES POLICY DIRECTION
