INTRODUCTION

This content outline is intended to help candidates prepare for the Municipal Fund Securities Limited Principal Qualification Examination (Series 51) by providing relevant information about the examination itself and sharing pertinent information about the content areas that are covered. The sample questions that appear on page 14 are similar to the types of multiple-choice questions that will appear in the examination. In addition, government and other self-regulatory organization websites that may be useful in preparing for the examination are provided at the end of the outline.

The questions used in the examination are reviewed and updated on a regular basis and reflect current market practices. Questions that test new rules or amendments will be included in the examination after the effective date of the rule or rule change. Existing questions on rules or portions of rules that have been deleted will be removed from the examination prior to the effective date of the amendment. The Series 51 exam is developed and maintained by the Municipal Securities Rulemaking Board (MSRB), the self-regulatory organization that establishes rules for municipal securities dealers and municipal advisors.

THE MUNICIPAL FUND SECURITIES LIMITED PRINCIPAL

The municipal fund securities limited principal has primary responsibility for overseeing the municipal fund securities activities of a broker, dealer or municipal securities dealer.¹ In this capacity, a municipal fund securities limited principal manages, directs or supervises one or more of the following activities:

- underwriting of municipal fund securities;
- trading of municipal fund securities;
- selling municipal fund securities to customers;
- communications with customers about any of the above activities;
- maintaining records on the above activities;
- processing, clearing, and (in the case of securities firms) safekeeping of municipal fund securities; and
- training of principals or representatives.

THE EXAMINATION

The Municipal Fund Securities Limited Principal Qualification Examination is designed to determine whether an individual meets the MSRB's qualification standards for municipal fund securities limited principals. To do this, the examination measures a candidate's knowledge of MSRB rules, rule interpretations and federal statutory provisions applicable to the activities listed above. It also measures the candidate's ability to apply these rules and interpretations to given fact situations in the context of municipal fund securities activities. In addition to passing this examination, a candidate must also have previously or concurrently qualified as a general securities principal or investment company/variable contracts limited principal.

¹ The municipal securities principal (Series 53) is also qualified to supervise these responsibilities.

The examination consists of 60 multiple-choice questions assigned to the seven areas of the examination as follows:

Regulatory Structure	5%
Product Knowledge	27%
General Supervision	17%
Fair Practice and Conflicts of Interest	17%
Sales Supervision	18%
Underwriting and Disclosure Obligations	6%
Operations	10%

These questions are further distributed among the various subtopics in a manner that reflects the distribution of subject matter in the content outline. Each question is worth one point, and the passing grade is 70%. Candidates are allowed one and one-half hours to complete the examination. During the administration of the examination, candidates are not allowed to use reference materials.

CONFIDENTIALITY

In order to ensure that its examinations constitute valid tests of the qualifications of persons who take them, the MSRB has instituted various procedures, in the question-writing as well as the administration phases, which are designed to preserve the confidentiality of the examinations. On several occasions, the MSRB has found it necessary to take legal action, alleging copyright violations, against securities training schools which had used in their training material questions and answers that were determined to have been taken from questions contained in MSRB qualification examinations. In addition, candidates are advised that the practice of “debriefing” persons who have taken a qualification examination may not only give rise to an infringement of the MSRB’s copyright but would be a violation of MSRB rules for the candidate.²

² Rule G-3(f) on “Confidentiality of Qualification Examinations” states that:

No associated person of a broker, dealer, municipal securities dealer or municipal advisor shall:

- (i) in the course of taking a qualification examination required by this rule receive or give assistance of any nature;*
- (ii) disclose to any person questions, or answers to any questions, on any qualification examination required by this rule;*
- (iii) engage in any activity inconsistent with the confidential nature of any qualification examination required by this rule, or with its purpose as a test of the qualification of persons taking such examinations; or*
- (iv) knowingly sign a false certification concerning any such qualification examination.*
