The Municipal Securities Rulemaking Board (MSRB) has prepared this resource for brokers, dealers, municipal securities dealers and municipal advisors registered with the MSRB (collectively, “regulated entities”). This resource highlights select MSRB rules, interpretative guidance and resources that correlate with municipal securities topics identified as 2019 examination priorities by the Office of Compliance Inspections and Examinations (OCIE) of the U.S. Securities and Exchange Commission (SEC) or the Financial Industry Regulatory Authority, Inc. (FINRA).

OCIE's 2019 Examination Priorities previewed key areas where OCIE intends to focus its 2019 risk-targeted examinations. With respect to the municipal securities market, these areas include examining for compliance with MSRB rules regarding municipal advisor registration, fiduciary duty obligations, mark-up disclosure obligations, professional qualifications, continuing education and compliance with recently effective MSRB rules. FINRA's 2019 Annual Risk Monitoring and Examination Priorities Letter identified topics it will focus on in the coming year including, with respect to the municipal securities market, examining for compliance with mark-up disclosure obligations and suitability, including the suitability of recommendations to purchase share classes that are not in line with the customer's investment time horizon or recommendations to hold for a period that is inconsistent with the security’s performance characteristics.

The following table lists municipal securities examination topics identified by OCIE and FINRA, and links to relevant MSRB rules, interpretive guidance and resources previously published by the MSRB that may be useful in helping regulated entities improve their understanding of the cited examination priorities.

---

1 This Compliance Resource should be read in conjunction with the relevant rules and related guidance. It does not create new legal or regulatory requirements, or new interpretations of existing requirements, and should not be interpreted as establishing new standards of conduct. This resource is not designed to address all regulatory obligations applicable to MSRB-regulated entities pursuant to each MSRB rule or under other securities laws and regulations (“applicable rules”) or identify an exhaustive list of considerations or resources for ensuring compliance with the applicable rules.

2 By statute, both the SEC and FINRA, as well as federal bank regulators, have the authority to examine for, and enforce, compliance with MSRB rules. Given that examining authorities must examine for compliance with a broad scope of business activities extending beyond the municipal securities market, examining authorities are not limited to examining for compliance with topics highlighted in their respective examination priorities.
