

**ADVANCE REFUNDING SUBMISSION
 DATA TAG MAPPING**

Set forth below are the information types and allowed values associated with advance refunding disclosure data and document messages. All advance refunding data messages will include a submission type of “advance refunding disclosure” with an offering type of “bond.” Issue and security types are included as appropriate to describe the nature of the offering. Advance refunding document is the only type of document that may be submitted in an advance refunding disclosure submission. Normally, a document will consist of a single PDF file. If a document consists of multiple files, each file must be submitted in a separate document message.

SOAP (Simple Object Access Protocol) - foundation layer of the web services protocol stack
 MTOM (SOAP Message Transmission Optimization Mechanism) - a method of efficiently sending binary data to and from web services
