

Announcing...

MSRB Gateway

The Municipal Securities Rulemaking Board (“MSRB”) is currently developing MSRB Gateway, a single secure access point for all MSRB applications and information. MSRB Gateway will be implemented in phases over the next calendar year.

Through MSRB Gateway, your firm will be able to quickly and easily complete the following regulatory tasks.

Coming Soon

Use MSRB Gateway to:

- Manage profiles and rights for all user accounts accessing MSRB systems from your organization – eventually including RTRS Web accounts and G-40 contacts;
- Designate additional account managers to assist with managing profiles and rights for users accessing MSRB systems;
- Access systems where you can submit Official Statements (“OS”), Advanced Refunding Documents (“ARD”), and related forms;
- Designate agents to submit OS and ARD documents on your firm’s behalf through the MSRB’s new EMMA system.

Future Features

Over the next calendar year, you will also be able to:

- Submit required regulatory forms such as a new streamlined Form RTRS and Form G-40;
- Access currently available reports and new reports;
- And more!

The MSRB plans to launch the first phase of MSRB Gateway this fall and will provide updates in the near future. Look for more information soon at www.msrb.org.
